MOF 4.0 Foundation

Course Number 1737

Microsoft® Operations Framework (MOF) 4.0 delivers practical guidance for everyday IT practices and activities, helping users establish and implement reliable, cost-effective IT services.

Pultorak & Associates' MOF 4.0 Foundation course provides a concise, two-day, instructor-led overview that provides an understanding of the MOF 4.0 service lifecycle phases, key concepts, processes, and management reviews. The course provides a structured and hands-on approach for IT professionals desiring service management knowledge that can be easily applied.

The MOF 4.0 Foundation course is designed to expose participants to the four phases of the MOF lifecycle: Plan, Deliver, Operate, and Manage. It also covers Service Management Functions (SMFs) and Management Reviews within each phase. The course provides a foundation for participants to begin to leverage service management concepts with Microsoft® products and technologies.

Who Should Attend?

IT professionals responsible for planning, developing, deploying, supporting, operating, and managing application-based IT services (e.g., messaging) and infrastructure-based IT services (e.g., network services). The MOF 4.0 Foundation course is for IT professionals throughout the organization. Senior managers will build knowledge on how to create the right set of goals and outcomes while the entire organization learns how to make the right decisions and ensure accountability. Lastly, individuals with responsibility to balance risk and ensure compliance will benefit from this class.

Optional Certification Examination

The MOF 4.0 Foundation course includes an exam consisting of 40 multiple choice questions.

Prerequisites

While there are no specific prerequisites for this course, participants are highly encouraged to have an understanding of ITIL®, ideally with an ITIL® Foundation certificate prior to taking this course.
